

Installation Reference LabView 8.51 Instrument Driver

Installation reference:

Click on the above link for the device which you would like to install, then save the data file on your main drive.

Start the installation with a double click on the previously saved file. Press the button "extract" in your WinZip program. Now you choose the LabView Instrument LIB directory (instr.lib) as your extract directory.

For Example:

C:\Programme\National Instruments\LabVIEW 8.2\instr.lib

C:\Programme\National Instruments\LabVIEW 8.5\instr.lib

WinZip establishes the directory "XXXX XXXX" by itself.

XXXX XXXX =

- Pfeiffer Vacuum
- Maxi Gauge
- Dual Gauge
- TPG 300
- RVC 300

WinZip extracts the files in your chosen directory.
